

# MEASURE THE IMPACT OF YOUR ASSETS

Smart Hub: The single solution for efficiently managing and monitoring your assets

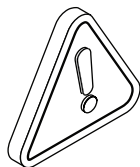

## HOW WILL **SMART HUB** HELP YOU?

Integrating Smart Hub from Gauge is like hiring a team of employees dedicated to watching every movement of your assets. It provides the information you need to maximize the utilization of your assets and gain critical insight for smarter decision-making.

### **MAINTENANCE:**

With Gauge's Smart Hub, you can automate preventative maintenance scheduling and streamline mechanics workflow, reducing operating costs and productivity disruption.

### **DRIVER SAFETY:**

Insurance and liability are constant issues when it comes to operating a fleet of on road vehicles. From automated driver behavior reports to real-time alerting, Smart Hub can keep your operation informed to what needs attention and when.

### **SECURITY:**

Keeping track of small and light duty equipment is always a challenge, but with Smart Hub's automated alerting you can be on top of unauthorized use or recovering lost or stolen equipment.

### **ASSET UTILIZATION:**

Maximizing utilization is key to lower equipment costs. From reducing rental expenses by using what's available to making strategic buy vs. lease decisions, Smart Hub provides the tools and reporting that are essential to make educated decisions.

### **OPERATIONAL EFFICIENCY:**

By providing a single source of information to fleet and asset operations Smart Hub makes it easier for team members to make decisions that impact maintenance workflow, equipment billing, dispatch, and logistics, saving your company time and money.

*"Smart Hub gives us real-time information and insights that have had a direct and significant impact on our bottom line."*

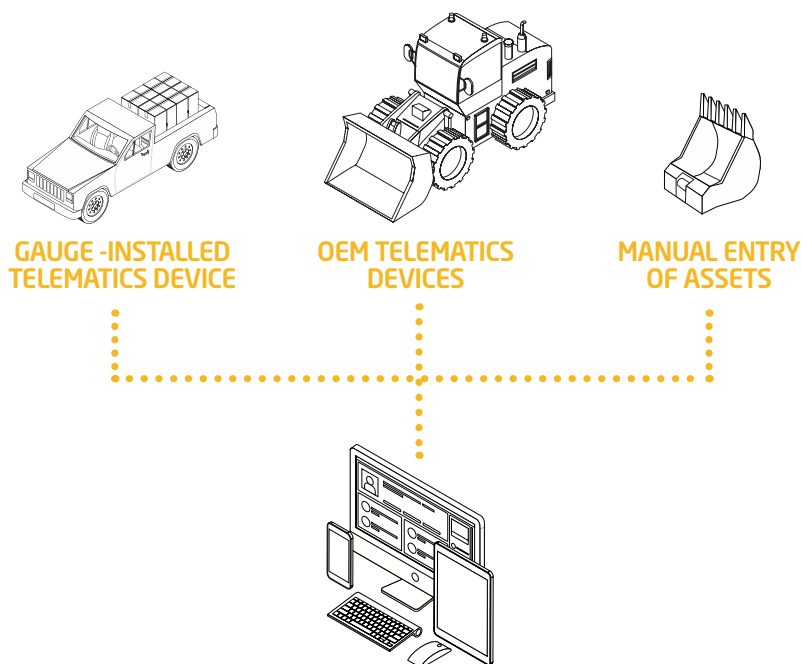

- **Matt Blocker,**  
President, **G.A. Blocker Grading**

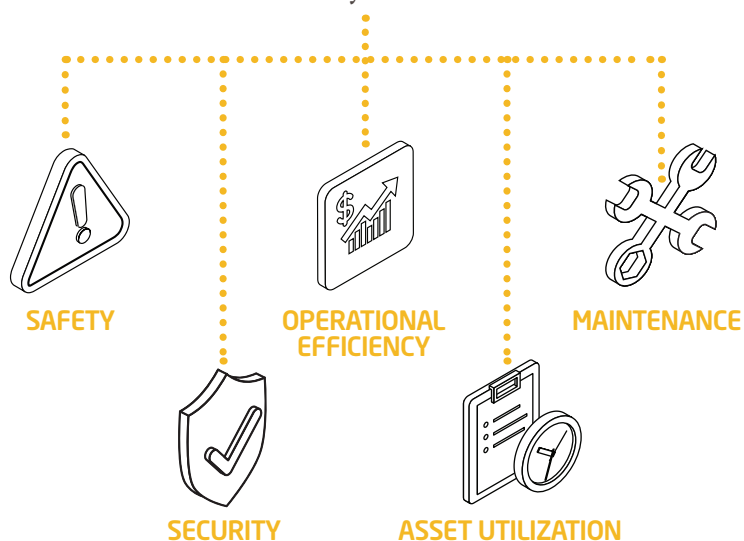

# Gauge

## SMART HUB IN ACTION

Our intuitive system manages and provides information on all your assets – not just vehicles and not just those with Gauge installed devices. Data can be collected from three sources:

Through Smart Hub, you can customize the data you see and the reports you receive—allowing you to measure what truly matters to your business.

And, as your company and fleet grow, Smart Hub grows with you, expanding its capabilities to meet the ever-changing needs of your business.

## SMART HUB PROVIDES YOU WITH:

- Secure cloud based application
- Fully Integrated AEMP telematics standard
- Driver behavior scorecard
- Utilization targets
- Intuitive user interface
- Fuel card transaction integration
- Integrated maintenance work order system
- Flexible company hierarchy
- Extensive asset properties and photos

At Gauge, we know that in order to see the true impact your assets have on the overall success of your company, you need to measure everything.
